Our favourite and most popular cruise is our "Maithon run". With visits to other islands in the afternoon.

Maithon is a private island off southern Phuket. We highly recommend this cruise because it is such a beautiful area with crystal clear water and a pod of more than 20 dolphins. Baby dolphins spotted recently!

We sail first to the Kai islands in the morning and then cruise south to Maithon Island where the crew will anchor, and prepare your lunch, while you play with all the boat water "toys" like the floating jacuzzi, water bike, hammocks etc. and enjoy snorkelling.

Maithon waters are great for snorkelling, as they are crystal clear with many tropical fish. You are very likely to see the dolphins there too, playing near the boat.

In the afternoon, the boat can call in to Rang Yai islands, where you can play with all the boat "toys" and swim to the beach. There is a possibility of calling in at the tiny island of Koh Phae too if it is low tide.

We guarantee you will have a fantastic day!
